

OUTDOOR FIRE COLLECTION

PALIFORM 

EXPERIENCE MODERN FIRE

Fire pits are more than just beautiful features for outdoor spaces - they are vehicles for bringing people together. Few things are more fundamental, or more enjoyable, than sitting around an open fire with family and friends.

Paloform's outdoor fire collection adds a modern dimension to the primordial campfire with clean, elemental designs, honest materials and certified burners - with options to suit a wide range of applications.

BENTO 32 & 42 | CONCRETE

MATERIAL:	handcast concrete
BURNER:	natural gas or propane; electronic or match-lit ignition 60,000-69,000 BTU/h, LabTest Certified (US & Canada) 25 kW, CE (Europe)
TOPPING:	river rock, lava pebble, crushed or pebble glass
DIMENSIONS:	32" x 32" x 12.75"h (813 x 813 x 324h) 42" x 42" x 12.75"h (1067 x 1067 x 324h)
ACCESSORIES:	included: all-weather fabric cover optional: aluminum table top; tempered glass screen

SOBA | CONCRETE

MATERIAL: handcast concrete
BURNER: natural gas or propane; electronic or match-lit ignition
60,000-69,000 BTU/h, LabTest Certified (US & Canada)
25 kW, CE (Europe)
TOPPING: river rock, lava pebble, crushed or pebble glass
DIMENSIONS: 28"d x 16"h (711d x 406h)
ACCESSORIES: included: all-weather fabric cover
optional: aluminum table top

MISO 36 & 48 | CONCRETE

MATERIAL:	handcast concrete
BURNER:	natural gas or propane; electronic or match-lit ignition 36": 60,000-69,000 BTU/h, LabTest Certified (US & Canada) 25 kW, CE (Europe) 48": 140,000 BTU/h LabTest Certified (US & Canada)
TOPPING:	river rock, lava pebble, crushed or pebble glass
DIMENSIONS:	36"d x 12"h (914d x 305h) 48"d x 16"h (1219d x 406h)
ACCESSORIES:	included: all-weather fabric cover optional: aluminum table top

BOL | CORTEN

MATERIAL:	corten weathering steel
FUEL:	wood-burning or natural gas or propane; electronic or match-lit ignition 60,000-69,000 BTU/h, LabTest Certified (US & Canada) 25 kW, CE (Europe)
TOPPING:	river rock or lava pebble; featherrock boulders optional
DIMENSIONS:	42"d x 9.25"h (1067d x 235h) Electronic 42"d x 13"h (1067d x 330h)
ACCESSORIES:	included: all-weather fabric cover optional: aluminum table top

CALDERA | CORTEN

MATERIAL: corten weathering steel
FUEL: wood-burning or
natural gas or propane; electronic or match-lit ignition
LabTest Certified (US & Canada)
25 kW, CE (Europe)
TOPPING: river rock or lava pebble; featherrock boulders optional
DIMENSIONS: 45" x 45" x 12"h (1143 x 1143 x 305h)
ACCESSORIES: included: all-weather fabric cover
optional: aluminum table top

BENTO 32 & 42 | CORTEN

MATERIAL: corten weathering steel
BURNER: natural gas or propane; electronic or match-lit ignition
60,000-69,000 BTU/h, LabTest Certified (US & Canada)
25 kW, CE (Europe)
TOPPING: river rock, lava pebble, crushed or pebble glass
DIMENSIONS: 42" x 42" x 13.25"h (1067 x 1067 x 337h)
32" x 32" x 13.25"h (813 x 813 x 337h)
ACCESSORIES: included: all-weather fabric cover
optional: aluminum table top; tempered glass screen

KOMODO 84 & 60 | LINEAR

MATERIAL:	corten or powder-coated steel
BURNER:	natural gas or propane; electronic or match-lit ignition 110,000 or 80,000 BTU/h, LabTest Certified (US and Canada) 34 kW or 25 kW, CE (Europe)
TOPPING:	river rock, lava pebble, crushed or pebble glass
DIMENSIONS:	84" x 16" x 24"h (2134 x 406 x 610h) 60" x 16" x 24"h (1524 x 406 x 610h)
ACCESSORIES:	included: all-weather fabric cover optional: tempered glass screen

ROBATA CONCRETE 72 & 54 | LINEAR

MATERIAL:	concrete body stainless steel top with cover plate
BURNER:	natural gas or propane; electronic or match-lit ignition 80,000 or 60,000 BTU/h, LabTest Certified (US and Canada) 25 kW or 18 kW, CE (Europe) electronic or match-lit
TOPPING:	river rock, lava pebble, crushed or pebble glass
DIMENSIONS:	72" x 24" x 12.5"h (1829 x 610 x 318h) 54" x 24" x 12.5"h (1372 x 610 x 318h)
ACCESSORIES:	included: all-weather fabric cover; metal table insert optional: tempered glass screen

ROBATA CORTEN 72 & 54 | LINEAR

MATERIAL:	corten weathering steel with cover plate
BURNER:	natural gas or propane; electronic or match-lit ignition 80,000 or 60,000 BTU/h, LabTest Certified (US and Canada) 25 kW or 18 kW, CE (Europe)
TOPPING:	river rock, lava pebble, crushed or pebble glass
DIMENSIONS:	72" x 24" x 12.4"h (1829 x 610 x 314h) 54" x 24" x 12.4"h (1372 x 610 x 314h)
ACCESSORIES:	included: all-weather fabric cover; metal table insert optional: tempered glass screen

FOLD 72 & 48 | FIRE TABLE

MATERIAL:	powder-coated aluminum or corten steel with cover plate
BURNER:	natural gas or propane; electronic or match-lit ignition 60,000 - 69,000 BTU/h, LabTest Certified (US and Canada) 18 kW - 25 kW, CE (Europe)
TOPPING:	river rock, lava pebble or crushed or pebble glass
DIMENSIONS:	72" x 36" x 14"h (1829 x 914 x 356h) 48" x 48" x 14"h (1219 x 1219 x 356h)
ACCESSORIES:	included: all-weather fabric cover; metal table insert optional: tempered glass screen

NIMBUS 72 | FIRE TABLE

MATERIAL: powder-coated aluminum with cover plate
BURNER: natural gas or propane; electronic or match-lit ignition
60,000 - 69,000 BTU/h, LabTest Certified (US and Canada)
18 kW - 25 kW, CE (Europe)
TOPPING: river rock, lava pebble or crushed or pebble glass
DIMENSIONS: 72" x 42" x 29"h (1829 x 1067 x 737h)
ACCESSORIES: included: all-weather fabric cover; metal table insert
optional: tempered glass screen

KODO 72 | OUTDOOR FIREPLACE

MATERIAL: corten steel
BURNER: natural gas or propane; electronic or match-lit ignition
60,000 BTU/h, LabTest Certified (US and Canada)
18 kW, CE (Europe)
TOPPING: river rock, lava pebble or crushed or pebble glass
DIMENSIONS: 72"w x 18d" x 72"h (1829w x 457d x 1829h)
ACCESSORIES: metal insert cover

MATERIALS

CONCRETE

Paloform high-performance concrete is a proprietary blend of local materials designed to balance aesthetics, durability and sustainability. We use high-volume fly ash in our mix which results in better, stronger concrete (55 MPa) and reduces the energy footprint of our products.

CORTEN

Corten or weathering steel is an alloy that develops a stable rust-like oxidation on its surface when exposed to the elements. This layer, which continually regenerates, provides a no-maintenance finish that protects the steel from corroding.

Our Corten fire pits are manufactured from heavy gauge, 3/16" thick steel and are designed to last a lifetime. They may be used for wood-burning or specified with natural gas or propane burners.

STAINLESS STEEL

All of our burner components are manufactured locally from 304 stainless steel which offers excellent corrosion resistance for outdoor applications.

Robata is available with a stainless steel top and cover in a brushed finish.

POWDER-COAT

Our powder-coated products utilize a two-coat system comprised of a zinc-rich primer and an opaque weather-resistant top coat.

BURNERS

Our burners are designed, developed and assembled in-house to ensure our quality and aesthetic standards are met. They are tested and certified by LabTest Certification Inc. to CSA and ANSI standards for the US and Canada, third-party CE Certified to the Gas Appliance Regulation for Europe and SVGW for Switzerland.

ACCESSORIES

Paloform fire pits come complete with all-weather fabric covers and decorative toppings. Optional accessories include aluminum table tops, which turn fire pits into tables when not in use, and tempered glass screens - both available for select models.

PALOFORM
designs and manufactures
fine outdoor fire pits and
fireplaces.

Our products embody
our belief in simple,
appropriate design and
honest materials and are
the result of over twenty
years of experimentation
and refinement.

Our products are proudly
made in Canada and
available worldwide.
